

Food Production

Proximity to major markets and low development costs, make the Mohawk Valley competitive for food processing.

As global climate change and drought continues to threaten crop production and sustainability in traditional agriculture like California and Mexico, Upstate New York – specifically, from Buffalo to Amsterdam– consistently ranks among the top five dairy-producing regions in the nation and is positioned to fill the gap to meet growing demand for food by large metropolitan economies.

Average Wage

\$33,464

Land Cost

New Business Parks and industrial development land average cost of \$20,000/acre or less.

Average land cost in the metro NY/NJ area 20x more expensive.
